* 19.06.1991

Profile

Engineer with a passion for embedded systems & PCB design.

Education

M.Eng. in Electrical Engineering - Embedded Systems
Warsaw University of Technology

Feb 2020 – Ongoing Warsaw, PL

B.Eng. in Electrical Engineering - Electronic Systems
Hochschule Bonn-Rhein-Sieg

Oct 2017 – Jan 2020 St. Augustin, DE

Thesis: Analysis and evaluation of automated workflows for the mapping of Deep Learning applications on FPGAs
1.6 / "good"

Experience

Internship

S.E.A. Datentechnik GmbH

Oct 2019 – Feb 2020 Troisdorf, DE

- Development of a Python application for the evaluation of a GPS connection used for the CE certification process of a mobile device.
- Optimization of the PCB assembly process to reduce idle time and production errors.
- Training of staff in the use of the pick & place machine.
- PCB development with Altium Designer.

Electrician

Sekotech GmbH

Jun 2016 – Sep 2017 St. Augustin, DE

- Nationwide installation and commissioning of security and network systems.
- Technical support

Electrician

Elektrotechnik Marc Weiss

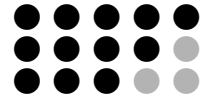

Sep 2014 – May 2016 Troisdorf, DE

- Construction management of objects with up to 50 residential units.
- Team leader for up to 10 employees.

Technical Skills

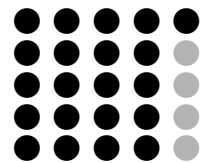

Programming Languages

C, Python, Matlab
LabView, VHDL, TS
C++, Go, \LaTeX

Electronics & Software Engineering

Embedded Systems
PCB Design
Fabrication
Signal Processing
IoT Applications

Technologies & Applications

Altium Designer KiCAD Eagle
LTSpice SimuLink Quartus & Vivado
ModelSIM
GNU/Linux Docker Cloud-GCP
GIT GitHub Action
Angular TensorFlow HTML/S(CSS)
MS Office & GSuite
Qualified Electrician
